

Disclaimer

The authors of these codes are Marcello Montanino and Vincenzo Punzo, from the University of Naples Federico II, and Zuduo Zheng from the University of Queensland.

The codes are confidential and intended solely for the use of the individual who obtained a copy from the authors, or from the following websites:

<http://multitude-project.eu/>

<http://www.connectedandautonomoustransport.com/reproducible-research.html>

Reproduction, display, distribution and transmission of the codes to third parties is forbidden.

The use of the codes by any person obtaining a copy of them is granted free of charge and subject to the following:

- to give the authors credit for the codes, by citing the source and the following scientific publications in any derivative work (e.g., reports and publications):

1) Punzo, V., Zheng, Z., Montanino, M., 2021. About calibration of car-following dynamics of automated and human-driven vehicles: Methodology, guidelines and codes. *Transportation Research Part C*, 128, 103165.

<https://www.sciencedirect.com/science/article/pii/S0968090X21001832>

2) Punzo, V., Montanino, M., 2016. Speed or spacing? Cumulative variables, and convolution of model errors and time in traffic flow models validation and calibration. *Transportation Research Part B*, 91, 21-33.
